

RADAR

WHAT'S IN YOUR *beauty bag?*

Kimberly DeOrsey, spa director at **Salamander Spa** at The Henderson A Salamander Beach & Spa Resort (Destin, FL), shares some of her personal beauty faves.

Kerstin Florian Rehydrating Neroli Water (www.kerstinflorian.com) "This is my must-have. Just one spray of its incredible scent takes me right to the spa. In fact, I feature it in our new in-room Wellness Bars. My 11-year-old daughter keeps it in her dance bag and shares it with all of her dance friends."

Make Up Factory High Shine Lip Gloss (www.makeupfactoryus.com) "This is my go-to when my lips are dry and dehydrated. The pleasant light texture allows it to add layer after layer for moderate to luscious shine."

Kerstin Florian Correcting Eye Rescue "These amazing algae-based treatment pads take years off of my eyes in minutes, reduce puffiness, smooth lines, and brighten. They are ideal for special occasions or before an early meeting."

Make Up Factory Dream Eyes Mascara "I get a great life from the brush, and the mascara, which lasts for more than 10 hours, has a conditioner that creates more volume. What I love is that it's paraben free."

Themaë Shimmering Dry Oil (www.themaë.fr) "This oil smells heavenly and is silky to the touch. Both my skin and hair have a noticeable shine and radiance when I use it."—H.J.

apply this, NOT THAT

Industry experts come clean on the ingredients found in professional products.

APRIL'S PRO: Tara Damiano, global education developer, The International Dermal Institute (IDI) and Dermalogica

BINCHOTAN CHARCOAL

"One of the hottest ingredients on the market today is activated Binchotan charcoal. This dynamic ingredient adsorbs 1,000 times its weight in oils and pollutants from the skin. (Adsorption involves the adhesion of one substance onto the surface of another. Unlike absorption, adsorption is when substances cling to each other rather than combine.) It is used to powerfully draw out excess sebum, toxins, and other impurities from the surface of the skin, allowing them to be easily rinsed away."

STAR PRODUCTS: The Charcoal Rescue Masque detoxifies, brightens, and invigorates normal to oily skin with activated Binchotan charcoal, which adsorbs impurities, and sulfur, which promotes cell turnover. www.dermalogica.com

ALCOHOL

"One of the main ingredients you should avoid in skincare is a drying type of alcohol, including SD alcohol, denatured alcohol, or isopropyl alcohol. These types of alcohol give products a quick-drying effect, which can cause dehydration, inflammation, and even an increase in visible fine lines. Alcohol also weakens the skin's barrier function and depletes essential lipids, leaving our skin more susceptible to irritation and dryness." —JULIE KELLER CALLAGHAN

PURE FIJI

FOUR AMAZING OILS AND RAW CANE SUGAR

Our award winning blend of oils plus raw sugarcane creates an amazing two in one treatment. Naturally exfoliate and deeply moisturize for glowingly beautiful skin!

COCONUT
Provides deep moisturization and hydration. Strengthens connective tissues and smoothes skin. Protects and repairs skin.
